ABOUT FAC

MISSION

The Florida Association of Counties helps Florida's counties effectively serve and represent their communities through Advocacy, Collaboration, and Education.

For 90 years, the Florida Association of Counties (FAC) has represented the diverse interests of Florida's counties, emphasizing the importance of protecting home rule – the concept that communities and their local leaders should make the decisions that impact their community.

FAC is the only association representing Florida's counties – bringing together the collective experience and knowledge of 377 county commissioners and supported by thousands of county professional staff. FAC provides the cohesive platform that enables county officials and staff to speak with a unified voice on behalf of all Floridians. Through FAC, counties are better able to serve not only their communities, but the entire state of Florida.

FLORIDA'S COUNTIES

Today, the 67 counties of Florida constitute a dynamic state that is home to more than 20 million people. Millions more visit the state every year. As Florida has grown and changed, so too has the role of county government.

Historically, counties were merely administrative subdivisions of the state, created to perform state-related functions. With Florida's tremendous growth, the county government function has become increasingly more important and complex.

Throughout the state, Florida's counties perform vital public service functions such as public safety, fire, emergency medical services, public record-keeping, jails, parks, libraries, health care, economic development, comprehensive planning, and roads, just to name a few.

Assessing and Maintaining Your Wastewater Collection System is Important. *Now* More Than Ever.

Terri Lowery, Senior Vice President

This year the Florida Legislature filed (and passed some) bills that increased the restrictions and requirements associated with wastewater infrastructure. The increased emphasis on asset management, condition assessment, filtration and inflow reduction and septic tank elimination will put significant pressure on local government resources and citizens that support them.

What This Means for You?

- Increased Focus on Preventing Overflows and Back-ups
- Additional Focus on Reducing Septic Tanks in Your Communities
- Improving the Management, Operation, and Maintenance of Your Collection Systems
- Assuring Your Sewer System Has Capacity for Meeting Your Community's Growth & Development Needs

Brian Icerman, Vice President

How Can We Help?

Jones Edmunds' comprehensive approach focuses on legislative priorities and long-term regulatory compliance. This approach offers many benefits:

- Analyzes your system's capacity to prevent overflows & back-ups
- Helps you effectively address sanitary sewer overflow events
- Makes your collection systems easier to manage, operate, and maintain

Let's work together to "achieve more now" for Florida's Environment!

SINCE 2004, NACo'S LIVE HEALTHY PRESCRIPTION DISCOUNT PROGRAM HAS SEEN:

$700 MILLION SAVED • 50 MILLION PRESCRIPTIONS FILLED • OVER 1,300 COUNTIES PARTICIPATING

Behind each of these numbers is a county resident who was helped by the Live Healthy program. Each dollar saved is money in the pocket of a county resident struggling with the high costs of prescription drugs.

Live Healthy U.S. Counties

Join the Live Healthy program, to save your residents an average of 29%* off retail prescription prices.

Contact NACo to join the program and get free marketing resources to ensure this essential cost-saving program reaches more people in your county.

Assessing and Maintaining Your Wastewater Collection System is Important. *Now* More Than Ever.

Terri Lowery, Senior Vice President

This year the Florida Legislature filed (and passed some) bills that increased the restrictions and requirements associated with wastewater infrastructure. The increased emphasis on asset management, condition assessment, filtration and inflow reduction and septic tank elimination will put significant pressure on local government resources and citizens that support them.

What This Means for You?

- Increased Focus on Preventing Overflows and Back-ups
- Additional Focus on Reducing Septic Tanks in Your Communities
- Improving the Management, Operation, and Maintenance of Your Collection Systems
- Assuring Your Sewer System Has Capacity for Meeting Your Community's Growth & Development Needs

Brian Icerman, Vice President

How Can We Help?

Jones Edmunds' comprehensive approach focuses on legislative priorities and long-term regulatory compliance. This approach offers many benefits:

- Analyzes your system's capacity to prevent overflows & back-ups
- Helps you effectively address sanitary sewer overflow events
- Makes your collection systems easier to manage, operate, and maintain

Let's work together to "achieve more now" for Florida's Environment!

$700 MILLION SAVED • 50 MILLION PRESCRIPTIONS FILLED • OVER 1,300 COUNTIES PARTICIPATING

Behind each of these numbers is a county resident who was helped by the Live Healthy program. Each dollar saved is money in the pocket of a county resident struggling with the high costs of prescription drugs.

Live Healthy U.S. Counties

Join the Live Healthy program, to save your residents an average of 29%* off retail prescription prices.

Contact NACo to join the program and get free marketing resources to ensure this essential cost-saving program reaches more people in your county.
