

ALL ABOUT FLORIDA

A FLORIDA COUNTY RESOURCE

Florida Association of Counties Federal Action Plan

As the nation's 3rd largest state, Florida's key issues are more than just state issues – they are issues of national significance. Each year the leadership of the Florida Association of Counties (FAC) develops a federal action strategy to share with national leaders and lawmakers.

FAC's federal advocacy team is solely comprised of FAC staff and our federal program consists of key federal issues impacting county governments.

Over the last several years FAC has built upon our federal advocacy program by building key relationships with Florida's Congressional Delegation members and their staff, hosting federal fly-in's in Washington D.C. for our members, utilizing the expertise of federal agencies, and partnering with the National Association of Counties (NACo) to further the advancement of shared interests of county governments.

It is with great honor that we present to you FAC's 2020 Federal Action Plan and we look forward to working with you to accomplish these objectives. On behalf of Florida's 67 counties, we thank you for your continued support and all that you do at the national level for the citizens of Florida.

2020 FEDERAL ACTION PLAN

SAVE THE DATE!
SEPTEMBER 29 - OCTOBER 1, 2020
WASHINGTON, D.C.

Florida Association of Counties Federal Advocacy Team
