ORDINANCE
NUMBER 2018-0160

AN EMERGENCY ORDINANCE OF THE BOARD OF COUNTY COMMISSIONERS OF CHARLOTTE COUNTY, FLORIDA REGULATING FIRE HAZARDS AND INCENDIARY DEVICES DURING DROUGHT CONDITIONS; PROVIDING FOR ENACTMENT AND AUTHORITY; JURISDICTION; IMPLEMENTATION; PROHIBITION; PUBLICATION; EXCEPTIONS AND PENALTY; PROVIDING FOR SEVERABILITY; AND PROVIDING AN EFFECTIVE DATE.

RECITALS

WHEREAS, Section 125.66(3), Florida Statutes, authorizes the Board of County Commissioners to enact emergency ordinances and to waive the regular notice requirements for ordinances; and

WHEREAS, the Board of County Commissioners has the authority, under Chapter 791, Florida Statutes, to adopt rules and regulations concerning fireworks and, under Section 125.01(t), Florida Statutes, to adopt ordinances necessary for the exercise of its powers and to prescribe fines and penalties for the violation thereof; and

WHEREAS, Charlotte County’s rainfall deficit for this year is several inches below normal conditions; and

WHEREAS, fire activity increases when the above conditions exist, and Charlotte County has already experienced numerous wild fires this year; and

WHEREAS, the Board of County Commissioners finds that enactment of an ordinance that provides a mechanism whereby the board can act quickly to implement appropriate restrictions to address rapidly changing drought conditions is in the best interest of the safety and welfare of the public in Charlotte County, and

1
NOW, THEREFORE, BE IT ORDAINED by the Board of County Commissioners
of Charlotte County, Florida:

Section 1. Enactment and authority.
This ordinance is enacted in accordance with and pursuant to the authority in
Chapters 125, 252, and 590 of the Florida Statutes.

Section 2. Jurisdiction.
The areas subject to this ordinance shall be all of unincorporated Charlotte
County, Florida and, to the extent it does not conflict with any applicable city ordinance,
shall also be effective within the City of Punta Gorda. Any law enforcement officer with
jurisdiction in the county shall have the authority to enforce the terms and provisions of
this ordinance.

Section 3. Implementation.
This ordinance is being adopted to minimize fire hazards in Charlotte County
during periods and conditions of extreme drought. This ordinance provides a
mechanism whereby the board can act quickly to implement appropriate restrictions to
address rapidly changing drought conditions. When the fire chief, or his or her designee,
determines that there exists a drought emergency and extreme risk of wild fires, the fire
chief or designee shall send written notification of such condition to the board. The fire
chief, in determining the existence of a drought emergency, shall take into consideration
certain factors including, but not limited to the following:

A. The Keetch/Byram Drought Index.
B. Discussions and consultation with the Florida Forest Service.
C. Consultation with other fire chiefs in the county and the region.
D. Study of meteorological conditions and climatological forecasts.

E. Whether the condition of the vegetation in the county is making it susceptible to ignition.

F. Any actions taken by surrounding jurisdictions in response to extreme drought conditions and fire hazards.

G. Any other condition or factor which could have a bearing on existing fire hazard conditions and which reasonably prudent persons would normally rely on to determine if a fire hazard condition exists.

In making such written presentation to the board, the fire chief will recommend which prohibitions to impose and under what, if any, conditions open burning or the discharge of fireworks or other incendiary devices will be allowed. The board may impose any or all of the prohibitions as conditions warrant. When outdoor burning is prohibited, such prohibition shall not be construed to apply to outdoor burning or land clearing where the division of forestry has issued a permit. It is the intent of the board not to prohibit the sale of fireworks except under the most exigent circumstances and where drought conditions are so severe that an actual emergency exists. The use or discharge of fireworks or incendiary devices may be prohibited or regulated even if the drought conditions are at less than an emergency state. After receiving the recommendation from the fire chief at a public meeting and considering all the evidence before it, the board may adopt a resolution imposing appropriate restrictions or prohibitions on open burning and discharge of fireworks or incendiary devices. The ban shall take effect upon approval of the resolution of the board and shall remain in effect until a like resolution repealing the burning ban is adopted by the board and upon
adoption of the repeal, the restrictions on burning or discharge of fireworks shall be immediately lifted. Further, the board from time to time may amend any resolution by changing, deleting, or modifying the provisions on burning and discharge of fireworks depending on changes in the drought conditions.

   **Section 4.** Prohibition.

   The resolution imposing the ban on open burning or discharge of fireworks may prohibit any or all of the following, depending on the recommendations of the fire chief and the severity of the drought conditions. A resolution may make it unlawful for any person to set fire or cause fire to be set to any forest, grassland, wild land, marshes, vegetation, or land in an urban or rural area including those associated with agriculture, silviculture, pile burning, or the building of campfires, bonfires, the burning of yard trash, household garbage, refuse, or other debris in the unincorporated areas of Charlotte County, unless otherwise provided herein. In addition, the resolution may prohibit any person or entity from discharging, causing to be discharged, or the sale of any fireworks or incendiary devices as defined in Chapter 791, Florida Statutes, as it may be amended from time to time, that may cause or have a tendency to cause wild fires as defined in Section 590.015, Florida Statutes. The resolution may also prohibit the holding of any event including, but not limited to, events involving motorcycles, automobiles, or any other vehicles or equipment that may cause hot exhaust gases or high temperatures that may be generated by catalytic converters or other devices on such vehicles in an open or uncontrolled area that is susceptible to wild fires. A ban on the sale of fireworks shall only be imposed in the most exigent of circumstances and when drought conditions are so severe as to constitute an extreme emergency.
Section 5. Publication.

Within a reasonable time after adopting a resolution pursuant to Section 3 above, the board shall publish a quarter page advertisement, in a newspaper of general circulation, not in the section reserved for legal advertisements, a summary of the resolution imposing a burning and fireworks ban or repealing such ban. The advertisement shall be published twice with the second advertisement appearing no more than five (5) days after the first advertisement.

Section 6. Exceptions.

(a) Nothing herein contained or in any resolution adopted pursuant to this ordinance shall be construed to prohibit lawful activities involving incendiary devices, fire, or flame in controlled industrial or commercial processes for which permits have been issued or, if no permit is issued, take place in a controlled industrial or commercial environment and are part of the manufacturing or assembly process that makes it unlikely that such incendiary flame or heat generating device will cause any type of wild fire or be a danger outside of the premises where the procedure or process is being conducted.

(b) Nothing herein shall prohibit residential outdoor cooking provided the same is done on a suitable piece of equipment designed to contain the fire, flame, and heat generated thereby.

(c) Outdoor cooking may be permissible in any public or private place provided there are facilities designed for outdoor cooking which contain the heat, flames, or fire otherwise generated by outdoor cooking.
(d) The provisions of this article shall not apply to any duly existing or constituted fire department, fire district, or volunteer fire department conducting training exercises involving open fire or flame solely for training purposes under controlled conditions.

Section 7. Penalties

(a) Penalties. In accordance with the provisions of Charlotte County Code, Section 1-1-8, violations of this Ordinance shall be prosecuted in the same manner as misdemeanors are prosecuted. Such violations shall be prosecuted in the name of the state in a court having jurisdiction of misdemeanors by the prosecuting attorney thereof and upon conviction shall be punished by a fine not to exceed $500 or by imprisonment in the county jail not to exceed 60 days, or by both such fine and imprisonment.

(b) Confiscation. In addition to the penalties provided in paragraph (a) of this section, fireworks and sparklers that are being used or discharged in violation of prohibitions enacted pursuant to this Ordinance are subject to confiscation and disposal by law enforcement authorities, at the expense of the owner.

(c) Injunctive Relief. Charlotte County, in addition to any other remedies provided by law, may seek in a court of competent jurisdiction an injunction against any person or entity who uses or discharges fireworks and sparklers in violation of this Ordinance. In the event Charlotte County prevails in a court action to enjoin a violation of this Ordinance, it shall be entitled to recover its reasonable attorney fees and court costs in addition to any other relief granted.
Section 8. Compliance with State Law

The Board of County Commissioners finds that an emergency exists and enacts this emergency Ordinance and waives the statutory notice requirements by a four-fifths vote of the membership of the Board as required by Florida law.

Section 9. Severability

Should any paragraph, section, sentence or portion of this Ordinance be held invalid or unconstitutional, such portion shall be severed from the remaining portions hereof and such invalidity or unconstitutionality shall not be construed to render invalid or unconstitutional the remaining provisions of this Ordinance.

Section 10. Effective Date.

This Ordinance shall be deemed to be filed and shall take effect when a copy has been accepted by the postal authorities of the government of the United States for special delivery by certified mail to the Department of State. The Clerk's Office is hereby directed to take the aforementioned steps to file this ordinance with the Department of State and to email this ordinance to the Department of State in accordance with Section 125.66(3).

PASSED AND DULY ADOPTED this 3rd day of April 2018.
