The Institute for County Government and the University of Florida IFAS Extension will host a panel of experts from UF Health to provide an update on testing, research and vaccines as well as discuss steps on moving forward.

This webinar is a follow up to an April 2, 2020 webinar: The Science of COVID-19. A recording of "The Science of COVID-19" is available to watch on our website.

Thursday, April 23 | 1:00 p.m. (EDT)

This webinar counts as 1.5 elective credits towards your CCC or CGE certification. Registration is free but you must register to get credit.

MEDICAL EXPERTS:

Glenn Morris, MD, MPH, & TM
Director
Emerging Pathogens Institute

John Lednicky, PhD
Research Professor
University of Florida

Ira Longini, PhD
Professor of Biostatistics
University of Florida

ANSWER OUR POLL!

Only One Question

Is your county negotiating hazard pay for any workers?

Yes

NACo Answers Counties Questions on the CARES Act

NACo members submitted questions during a March 26 national call focusing on the Coronavirus Aid, Relief and Economic Security Act (CARES Act; PL 116-136), a March 30 call for NACo members to connect with the Centers for Disease Control and Prevention (CDC), an April 3 call for large urban counties and an April 10 national call focusing on how the CARES Act benefits counties.

Please find the link to the recordings of all NACo national calls [here](#). To view the questions and answers from NACo’s national calls, please [click here](#).

U.S. Senate Passes Coronavirus Relief Package

On Tuesday, the U.S. Senate passed the Paycheck Protection Program and Health Care Enhancement Act, also known as the “COVID-19 3.5” relief package. This package is a good step toward supporting counties’ vast health, safety and economic recovery responsibilities, many of which are mandated by states and the federal government, but we need more resources as we address this unprecedented pandemic.

County revenues are plummeting while costs are skyrocketing. NACo [found](#) that the pandemic could lead to massive budgetary impacts for county governments and local taxpayers, with as much as $144 billion in lost revenue and increased expenditures through FY2021.

FAC and NACo are pleased that [President Trump committed](#) to working with us to enable counties to use CARES Act and future funding to cover lost revenue, and he pledged to provide additional aid for states and local governments in future legislation.

Thank you for your ongoing efforts to advocate for counties. As we move forward, FAC and NACo will work to secure robust, direct and flexible funding for counties of all sizes.

Q&A with the CDC

Can the COVID-19 virus spread through sewage systems?

CDC is reviewing all data on COVID-19 transmission as information becomes available. At this time, the risk of transmission of the virus that causes COVID-19 through sewerage systems is thought to be low. Although transmission of the virus that causes COVID-19 through sewage may be possible, there is no evidence to date that this has occurred. This guidance will be updated as necessary as new evidence is assessed.

SARS, a similar coronavirus, has been detected in untreated sewage for up to 14 days. In the 2003 SARS outbreak, there was documented transmission associated with sewage aerosols. The available information suggests that standard municipal wastewater system chlorination practices may be sufficient to inactivate coronaviruses, as long as utilities monitor free available chlorine during treatment to ensure it has not been depleted.

Wastewater and sewage workers should use standard practices, practice basic hygiene precautions, and wear personal protective equipment (PPE) as prescribed for current work tasks.

NACo Releases Guidebook on Virtual Meetings Platforms

NACo created some clear and simple guidelines and tips for running secure virtual meetings with the following softwares - GoToWebinar, Zoom, Cisco WebX, and Microsoft Teams. NACo analyzed their key features and security procedures.

To view the general guide, please [click here](#). For the guidebook on best practices, please [click here](#).
