## Coronavirus (COVID-19) Pandemic: Best Practices

FEMA and the U.S. Department of Health and Human Services (HHS) are collecting and sharing best practices and lessons learned from the whole-of-America response to the coronavirus (COVID-19) pandemic. The best practices are intended to help medical practitioners, emergency managers, and other critical stakeholders learn from each other's approaches and apply solutions to current response and recovery operations.

The [FEMA Coronavirus Emergency Management Best Practices](#) page provides a one-stop shop to explore best practices and lessons learned across all levels of government, private sector, academic institutions, professional associations, and other organizations. HHS has a comprehensive [Novel Coronavirus Resources](#) page that highlights technical resources and information for the medical community and emergency responders.

Best practices are organized around five themes:

- *Helping People*, which includes best practices on topics such as crisis counseling resources and anticipating and attending to civil rights;
- *Government Operations* best practices such as public information and continuity of operations considerations;
- *Private Sector and Infrastructure*, which includes best practices for commercial trucking and food stores;
- *Recovery Planning and Implementation*, to include the newly released FEMA Disaster Financial Management Guide and economic recovery considerations; and
- *Medical Supplies and Equipment*, including best practices for the preservation of personal protective equipment while ensuring workers are protected.

Please visit [www.coronavirus.gov](http://www.coronavirus.gov) for current health-related guidance and information on COVID-19.

## Follow Us
