Public Assistance Application Requirements for Private Nonprofit Organizations

This Quick Guide outlines FEMA's **Request for Public Assistance process for private nonprofit organizations** and explains which private nonprofits must also apply for a U.S. Small Business Administration (SBA) disaster loan before receiving certain Public Assistance funding.

Submit a Request for Public Assistance with Supporting Documentation

Private nonprofit organizations that offer certain types of eligible services are eligible to receive FEMA Public Assistance funding for damages caused by a presidentially-declared emergency or major disaster. Private nonprofit organizations interested in pursuing Public Assistance reimbursement must submit a **Request for Public Assistance (RPA)** through the Recipient. In the Request for Public Assistance, a private nonprofit organization must demonstrate that it 1) is a non-revenue producing, nonprofit entity under federal or state law and 2) owns or operates a facility that provides an eligible service.

Proof of legal private nonprofit entity status

An organization must demonstrate private nonprofit status using one of the following documents:

- ☐ A current ruling letter from the U.S. Internal Revenue Service granting tax exemption under sections 501(c), (d), or (e) of the Internal Revenue Code of 1954; or
- ☐ Documentation from the state substantiating it is a non-revenue producing, nonprofit entity organized or doing business under state law.

Recipient

State, tribe or territory that receives and administers the Public Assistance Federal award.

Applicant

State, local, tribal, or territorial government or eligible private nonprofit entity submitting a request for assistance under the Recipient's Federal award.

Eligibility of services provided at the damaged facility

The eligibility of a private nonprofit organization is also based on the services provided at the facility owned or operated by the private nonprofit. Each facility must provide **critical** or **non-critical but essential** services, as defined by federal statute, to be considered eligible for Public Assistance.

Type of services provided	Examples of services
Critical Services	Schools, utilities, emergency services, medical services
Non-Critical but Essential Government Services	Houses of worship, community centers, libraries, child care

Note: A private nonprofit that provides both eligible and ineligible services may be considered a mixed-use facility. Eligibility of mixed-use facilities is determined based on the type and extent (measured as a percentage) of the primary use of the facility. Mixed-use facilities may be subject to additional eligibility requirements that are explained in the [Public Assistance Program and Policy Guide](#).

In addition to providing the name and location of the damaged facility and the primary purpose of each facility, a private nonprofit Applicant will need to answer the following questions:

- ☐ Who can use the facility and is use restricted to certain groups?
- ☐ Is there a fee to use the facility?
- ☐ Does the private nonprofit have the legal responsibility to repair the facility?

If an Applicant does not provide this information when submitting a Request for Public Assistance, the eligibility determination will be delayed.

Approval of the Request for Public Assistance

Once an Applicant submits a Request for Public Assistance, a representative of the Recipient will review and send the request to FEMA. **FEMA staff make the determination whether the Request for Public Assistance is eligible. Applicants will be notified of their eligibility for Public Assistance.**

Small Business Administration Loan Requirements

Federal regulations require that **private nonprofits providing non-critical but essential services apply for a disaster loan through the U.S. Small Business Administration (SBA) before receiving Public Assistance funding for permanent work.** This requirement does not apply to emergency work. After applying for the SBA loan, the Applicant must report the results to FEMA. The amount of funding provided by an SBA loan will be deducted from the cost estimate that FEMA will reimburse. The table that follows summarizes when private nonprofits must apply for an SBA loan to receive Public Assistance reimbursement.

Emergency work
Emergency protective measures and debris removal.

Permanent work
Permanent restoration of damaged facilities, including roads, bridges, water control facilities, buildings and equipment, utilities, parks, and recreational facilities.

Type of services provided	Emergency work	Permanent work
Critical Services	SBA application <u>not</u> required	SBA application <u>not</u> required
Non-Critical but Essential Government Services	SBA application <u>not</u> required	SBA application <u>IS</u> required

SBA offers loans to qualified businesses and most private nonprofit organizations to cover disaster losses not fully covered by insurance. These loan proceeds may be used for the repair or replacement of real property, machinery, equipment, fixtures, inventory, or leasehold improvements. For more information, including deadlines and to apply online for a SBA disaster loan visit disasterloan.sba.gov/ela/Information/BusinessPhysicalLoans.

Insurance Proceeds
FEMA and SBA cannot provide disaster assistance funding that duplicates insurance proceeds. An Applicant must pursue claims to recover insurance proceeds that it is entitled to receive from its insurer(s).

Submitting a Public Assistance Funding Request for COVID-19

FEMA Public Assistance COVID-19 Streamlined Project Application

FEMA developed this COVID-19 streamlined project application to simplify the application process for [Public Assistance](#) funding under the COVID-19 pandemic declarations. This document includes the project application and instructions for how the Applicant should complete and submit the application to the Recipient and FEMA.

Overview

FEMA may provide funding to eligible Applicants for costs related to emergency protective measures¹ conducted as a result of the COVID-19 pandemic. Emergency protective measures are activities conducted to address immediate threats to life, public health, and safety. Eligible Applicants may submit funding requests to the Recipient and FEMA through the Public Assistance Grants Portal. FEMA provides funding through Recipients to eligible Applicants.

Prerequisites

Prior to submitting this project application, Applicants must submit and receive approval of a Request for Public Assistance. To submit a request, visit the Public Assistance Grants Portal at grantee.fema.gov.

Public Assistance Funding Considerations

Public Assistance funding is subject to a cost share: The assistance FEMA provides through its Public Assistance program is subject to a cost share. The federal share is not less than 75 percent of eligible costs. The federal cost share may be increased in limited circumstances if warranted. The Recipient determines how much of the non-federal share the Applicant must fund.

Public Assistance cannot duplicate funding from another federal source:

Some activities may be eligible for funding through both FEMA and other federal agency funding sources for COVID-19 including the U.S. Department of Health and Human Services' Centers for Disease Control and Prevention (CDC) and Office of the Assistant Secretary for Preparedness and Response (ASPR). The Applicant should not request funding for activities where the costs have been or will be claimed from another federal funding source.²

Some activities may be completed through direct federal assistance: Some eligible activities may be completed directly by the Federal Government rather than provided as financial assistance to Applicants to

Recipients

are state, [tribal](#), or territorial entities that receive and administer Public Assistance federal awards.

Applicants

are state, [tribal](#), territorial, or local governments or private non-profit entities that may request and receive subawards under a Recipient's award.

Grants Portal

is the system used by Recipients and Applicants to manage PA grant applications.

Projects & Subawards

Projects are groupings of activities that become a subaward under the Recipient's award when approved.

¹ The latest updated guidance on emergency protective measures eligible for Public Assistance reimbursement for COVID-19 can be found at <https://www.fema.gov/coronavirus>.

² Including any costs that have been or will be claimed through another funding source will delay the Recipient's and FEMA's processing of this funding request. If FEMA or the Recipient later determines the Applicant requested funding for activities where costs were funded by another federal agency, FEMA may de-obligate all funding until the Applicant can specifically demonstrate that duplicate funding was not provided. If another federal agency has *denied* a funding request, the Applicant may submit the funding request to the Recipient and FEMA for consideration.

complete those activities. If an Applicant does not have the capacity to directly complete the activity or oversee activity completion through contract or mutual aid, the Applicant may request that FEMA or another federal agency directly conduct the activity. Applicants seeking direct federal assistance should not use this project application but instead request assistance from the FEMA Regional Administrator through the Recipient's emergency manager.

For more guidance: The following FEMA guidance defines activities and associated costs that are eligible for Public Assistance funding:

- FEMA's [Public Assistance Program and Policy Guide \(PAPPG\)](#)

- FEMA Fact Sheet: [Coronavirus \(COVID-19\) Pandemic: Private Nonprofit Organizations](#)

What information is required?

Applicants will need the following information about their activities and costs to complete this form:

- A description of the activities including when, where, and by whom the activities were completed or will be completed.
- A summary of how much the activities cost, including costs associated with contract, labor, equipment, supply, material, and other cost types.
- Documentation supporting the activities completed and costs claimed, as detailed below.
- Certification of compliance with federal, state, tribal, territorial, and local laws and regulations.

How does the Applicant complete this project application?

Applicants will complete and submit this project application online in the FEMA [Public Assistance Grants Portal](#). FEMA will **not** accept paper submissions of this project application. The application is being provided to Applicants and Recipients in paper form here to provide guidance on what information FEMA will require from Applicants if they seek reimbursement for COVID-19 related activities.

FEMA will process each project application submitted as a separate funding request. **To reduce funding delays and maximize the Applicant's administrative flexibilities to track costs, Applicants should generally report all activities on one project application.** However, submitting a separate project application for distinct activities or time periods is advisable in certain scenarios:

- When an Applicant needs to be reimbursed immediately and cannot wait to gather all information to submit a full claim for all their activities and costs, the Applicant may:
 - Request expedited funding to receive an award of 50% of the total cost based on limited documentation;³ or
 - Limit an initial project application to certain activities or an initial time period and follow up later with an additional project application for other activities or time periods.⁴
- Certain activities may require FEMA to complete a more in-depth environmental or historic preservation review, for example: ground disturbance, hazardous materials, modifications to buildings, or new construction. For these activities, the Applicant should submit one project

³ Applicants should use Schedule A of this project application to request expedited funding. FEMA may provide remaining 50% of funds through a project amendment, which will require the Applicant to provide documentation to support expenditures of the entire claimed cost, including the first 50%. Because expedited funding is awarded based on reduced documentation requirements, FEMA will only fund these projects for specific time periods.

⁴ If the follow-up funding request is for the same activities and time periods, the original project application will be amended. If the follow-up funding request is for distinguishable activities or time periods an additional project application may be submitted.
Last Updated: April 10, 2020

application for activities with environmental or historic preservation considerations and another project application with their remaining activities. For additional information, see the *COVID-19 Fact Sheet: Environmental and Historic Preservation and Emergency Protective Measures for COVID-19*.

The project application has four sections and six supplemental schedules. All Applicants must complete sections I, II, III, and IV and one or more of the following schedules:

- Schedule A, B, C, or EZ depending on the cost and activity status.
- Schedule D when claiming costs equal to or greater than \$131,100⁵ for certain activities.
- Schedule F when claiming costs for activities that may have environmental and historic preservation concerns.

Table 1 illustrates the circumstances under which each schedule should be completed.

Cost	Funding Request Type	Work Status	Cost Basis	Schedules Required					
				A	B	C	D	EZ	F*
Less than \$131,100	Small	Any	Any					X	X
Equal to or greater than \$131,100	Large Expedited	Any	Applicant-Provided Information	X					X
	Large Regular	Complete	Actual Costs		X		X		X
		In-progress	Actual Costs & Applicant-Provided Information			X	X		X
		Not started	Applicant-Provided Information			X	X		X

*Schedule F may be required based on specific activities.

What happens after submitting the project application?

FEMA and the Recipient will review the information in the project application and may follow up with limited requests for additional information as part of the process outlined in the FEMA Fact Sheet [Coronavirus \(COVID-19\) Pandemic: Public Assistance Simplified Application](#). After submission:

1. FEMA and the Recipient review the project application and validate information and documentation provided to ensure compliance with all federal laws and regulations. If there are additional questions to evaluate the eligibility of the project application, FEMA and the Recipient will contact the Applicant to discuss. This may include contacting the Applicant by phone or through the [Public Assistance Grants Portal](#).
2. Upon completion of these reviews, the Applicant will be notified that funding for their project application is ready to be awarded. The Applicant will be required to review, agree to terms and conditions, and sign to accept the subaward in the [Public Assistance Grants Portal](#).
3. Once the Applicant signs the subaward, FEMA makes funding available to the Recipient for disbursement to the Applicant.
4. Once FEMA obligates and transfers funding for the subaward, the Applicant will become a Subrecipient in the Public Assistance program. The Recipient may request additional information before disbursing funds to the Subrecipient.
5. The Recipient will work directly with the Subrecipient to: monitor and report on the status of the activities, comply with federal and Recipient grant requirements, and close the subaward in accordance with 44 C.F.R. § 206.204-209, 2 C.F.R. Part 200, FEMA's *Public Assistance Program and Policy Guid* (PAPPG), and FEMA's [Program Management and Grant Closeout SOP](#).

⁵ FEMA establishes a threshold to categorize projects as large or small based on the final approved amount of eligible costs after any cost adjustments, including insurance deductions. The threshold is adjusted for each federal fiscal year. For more details, see <https://www.fema.gov/public-assistance-indicator-and-project-thresholds>.

Instructions: Applicants must complete this section and provide the costs of the activities reported in Section II. Applicants must also complete Schedule A, B, C, or EZ as instructed below to estimate a project cost.

1. GENERAL COST & WORK STATUS QUESTIONS**Optional: Request Expedited Funding**

An Applicant may request approval for expedited funding from the Recipient and FEMA if they have an immediate need for funding to continue life-saving emergency protective measures. If approved, the Applicant will be awarded 50% of the FEMA-confirmed project cost based on initial documentation. However, the Applicant will then be required to provide all information, including all documentation to support actual incurred costs, to support the initial 50% of funding before receiving any additional funding. Applicants will be required to return any funds that were not spent in compliance with the program's terms and conditions. In general, Applicants who have never received FEMA Public Assistance funding and do not have significant experience with federal grant requirements should avoid expedited funding or, at a minimum, discuss expedited funding with their Recipient emergency management office *prior* to requesting expedited funding. Expedited funding is only available for activities completed during specific time periods.

Does the Applicant want to request expedited funding?

- ☐ No. *Continue to the next question.*
- ☐ Yes. *Please complete Schedule A to request an expedited project from FEMA and return to Section IV.*

This question should be answered once to describe all the activities reported in Section II (i.e. the earliest start date and the latest end date). If FEMA's eligibility criteria for certain activities are limited to specific time periods, FEMA will ask for the time period that a particular activity was or will be conducted.

- ☐ Activities started _____ (MM/DD/YY) and completed _____ (MM/DD/YY).
Please complete Schedule B to provide actual cost documentation and return to Section III Part 2.

SCHEDULE A – Expedited Funding Estimate

Instructions: The Applicant must complete this section if requesting expedited funding in Section III of the project application. Expedited funding is only available if the total net cost for the request is greater than or equal to \$131,100.

1. GENERAL ELIGIBILITY

Please explain why there is an immediate need for funding:

Please select the time-period for which the Applicant is requesting expedited funding for the activities reported in Section II:

Because expedited funding is awarded based on reduced documentation requirements, FEMA funds these projects for specific time periods.

Start Date: _____ (MM/DD/YY) Designated Time-Period:

☐ 30 days

☐ 60 days

☐ 90 days

☐ Another time-period: _____

Please describe how the activities reported in Section II address an immediate threat to life, public health, or safety:

If it is not clear that a direct threat to life, public health, or safety exists, or that the activity is necessary to cope with the threat, FEMA may request documentation to demonstrate that the Applicant conducted the activities at the direction or guidance of public health officials. See PAPPG at pp. 19-20, 42-43, and 57.

Please select the reason why the activities reported in Section II are the legal responsibility of the Applicant:

☐ The Applicant is a government organization and the state's, tribe's, or territory's constitution or laws delegate jurisdictional powers to the Applicant.

☐ A statute, order, contract, articles of incorporation, charter, or other legal document makes the Applicant responsible to conduct the activities for the general public. *Please describe:*

☐ For other reasons. *Please describe:*

To determine legal responsibility for Emergency Protective Measures, FEMA evaluates whether the Applicant requesting the assistance either had jurisdiction over the area in which work was performed or the legal authority to conduct the activities. In general, an Applicant only has legal responsibility to conduct Emergency Protective Measures within its jurisdiction. If an Applicant conducts Emergency Protective Measures outside its jurisdiction, it must demonstrate its legal basis and responsibility to conduct those activities. See PAPPG at pp. 20-21 and 41-42.

If an Applicant conducts Emergency Protective Measures outside its jurisdiction, it must demonstrate its legal basis and responsibility to conduct those activities. See PAPPG at pp. 20-21, and 41-42.

Please describe how the activities reported in Section II address an immediate threat to life, public health, or safety:

When the emergency medical delivery system within a declared area is destroyed, severely compromised, or overwhelmed, FEMA may fund extraordinary costs associated with providing temporary facilities for emergency medical care or expanding existing medical care capacity in response to the declared incident. Temporary facilities and expansions may be used to treat COVID-19 patients or non-COVID-19 patients, as appropriate. FEMA may provide assistance and approve funding for an initial 30 days, from the date that the facility is operational, as an immediate need notwithstanding that the services may be covered by another source. If additional time is needed, the Applicant should request FEMA re-assess before the end of the 30 days and FEMA may grant another 30-day extension as warranted. FEMA cannot duplicate funding provided by another source and will reconcile final funding based on any funding provided by another agency or covered by insurance. Applicable requirements for labor and contracting under federal grants apply.
