WHEREAS, on March 17, 2020, ST. JOHNS COUNTY EMERGENCY PROCLAMATION NO. 2020-1 declared a state of local emergency due to the threat of the Coronavirus Disease 2019 (COVID-19) to spread among humans, which may pose a threat to public health and safety and cause a threat to the entire State of Florida, including St. Johns County; and

WHEREAS, the Centers for Disease Control and Prevention (CDC) and the Florida Department of Health (Department) continue to provide guidance to reduce the introduction of COVID-19 into new communities and to slow the spread of infection in communities already affected by the virus; and

WHEREAS, the CDC and Department report that COVID-19 is spread by close social contact, including among individuals who are currently asymptomatic; and

WHEREAS, as part of efforts to address emergency conditions caused by COVID-19 and assist affected citizens and properties, St. Johns County has sought to reduce the threat of large scale exposure by eliminating the potential for residents, visitors, and others to congregate in large gatherings, including on public beaches situated within the geographic boundaries of St. Johns County, Florida; and

WHEREAS, on March 28, 2020 and April 6, 2020, St. Johns County entered ST. JOHNS COUNTY EMERGENCY ORDER NOS. 2020-1 and 2020-3, respectively, ordering that all public beaches situated within the geographical boundaries of St. Johns County, Florida shall be closed to public access and setting forth enforcement procedures; and

WHEREAS, while the restrictions of ST. JOHNS COUNTY EMERGENCY ORDER NO. 2020-1 and 2020-3 were necessary to help "flatten the curve" of individuals diagnosed with COVID-19 in order to limit exposure and help preserve resources and personnel to effectively respond to this public health emergency, and have proven to be effective in doing so, they nonetheless presented a hardship to the public; and

WHEREAS, in accordance with ST. JOHNS COUNTY EMERGENCY ORDER NO. 2020-3, the County Administrator has periodically reviewed the necessity of continuing the closure of the beach and

whether the beach, or any part of it, may be reopened for use by the public, in consideration of the health, safety, and welfare of the public; and

WHEREAS, on April 17, 2020, St. Johns County entered ST. JOHNS COUNTY EMERGENCY ORDER NO. 2020-4, which, among other things, continued the closure of the beach, but allowed members of the public engaged in uses that require physical activity, such as walking, running, exercising, surfing, biking, fishing, and swimming, to access the beach between the hours of 6:00 a.m. and 12:00 p.m., provided all such person comply with social distancing recommendations and certain other conditions; and

WHEREAS, for more than two weeks, the County Administrator, together with law enforcement and public officials and representatives of municipalities in St. Johns County have monitored compliance with the provisions ST. JOHNS COUNTY EMERGENCY ORDER NO. 2020-4 and have found the public to be generally cooperative without the need of either criminal or noncriminal enforcement; and

WHEREAS, St. Johns County has also monitored the policies, directives, and experiences of other nearby local governments that had lifted or relaxed restrictions on public beaches in order to identify “best practices” and other actions that would be suitable for St. Johns County, as it continues to mitigate the spread of COVID-19, while providing for the health, safety, and welfare of the public, including through outdoor activities and recreation; and

WHEREAS, the CDC and the Department have emphasized the importance and benefits of exercise, performed in a manner consistent with CDC social distancing guidance, on both physical and mental health during this crisis; and

WHEREAS, it is beneficial for the public to have an opportunity for outdoor activity and, for that purpose, to make the beaches accessible, while continuing to monitor the access to ensure the health, safety, and welfare of the public; and

WHEREAS, St. Johns County continues to review and consider the changing information and dynamics of the COVID-19 crisis and impacts on the community; and

WHEREAS, while the COVID-19 crisis has not yet passed such that an emergency and conditions that endanger the safety of the public continue to exist under Section 3.10 of the St. Johns County Beach Code, Ordinance No. 2007-19 (“Beach Code”), St. Johns County finds that many of the restrictions imposed by ST. JOHNS COUNTY EMERGENCY ORDER NO. 2020-4 may be further lifted in a measured and thoughtful way, including, specifically, restrictions on the hours of public access to the beach and the activities permitted on the beach, provided that beachgoers continue to comply with social distancing recommendations and orders and the provisions of the Beach Code; and

WHEREAS, through this Emergency Order, St. Johns County intends to continue to reduce the threat of large scale exposure from high numbers of individuals gathered for social, commercial, and non-essential purposes through restrictions that are consistent with CDC and Department guidance regarding the spread of this rapidly transmitted disease and with its impact on limited health, medical and administrative resources; and

WHEREAS, St. Johns County deems it necessary to make such efforts in order to protect the health, safety, and welfare of the public.
