

OMNIA Partners providing COVID-19 resources that can help

OMNIA Partners is a cooperative purchasing organization that provides higher education institutions access to a large portfolio of competitively solicited contracts from industry-leading suppliers. In this time of uncertainty, we know educational institutions are working tirelessly to address their universities needs but are hindered by their availability to procure the necessary products and services.

OMNIA Partners has assembled a task force to address the evolving needs during this time. This task force is working with the executive teams of our supplier partners to assist in the deployment of their COVID-19 plans.

COVID-19 Products and Services:

- Masks, sanitizer, gloves, thermometers and gowns
- Sanitization equipment and services
- Testing tents, barriers and signage
- IT products including audio/visual and software
- Consulting services

To browse additional products and services from our portfolio of contracts, visit our [COVID-19 Resource](#) page.
