WHEREAS, the Board of County Commissioners of Monroe County, Florida (hereinafter “Board”) finds that COVID-19 presents a danger to the health, safety, and welfare of the public; and

WHEREAS, the Centers for Disease Control (CDC) advises that COVID-19 spreads mainly from person to person through respiratory droplets produced when an infected person coughs, sneezes, or talks; these droplets can land in the mouths or noses of people who are nearby or possibly be inhaled into the lungs; and studies and evidence on infection control report that these droplets usually travel around 6 feet (about two arms lengths); and

WHEREAS, the CDC advises that a significant portion of individuals with coronavirus lack symptoms (“asymptomatic”) and that even those who eventually develop symptoms (“pre-symptomatic”) can transmit the virus to others before showing symptoms. This means that the virus can spread between people interacting in close proximity—for example, speaking, coughing, or sneezing - even if those people are not exhibiting symptoms; and

WHEREAS, despite several protective measures taken by the State and the County, the infection rates have grown worse; and

WHEREAS, state and local officials from Miami-Dade, Broward and Palm Beach Counties have recognized that those three counties have seen the gravest infection rates of the State; and

WHEREAS, Miami-Dade County is immediately adjacent to Monroe County and Broward County is located between Miami-Dade and Palm Beach counties; and

WHEREAS, according to representatives of the Monroe County Tourist Development Council, much of the summer tourism market in the Keys stems from residents of Miami-Dade, Broward, and Palm Beach counties; and

WHEREAS, current research has shown that a leading means of spreading the virus is by passage of aerosol particles exhaled by infected persons; and

WHEREAS, the CDC, State and Local Health Officials, as well as Monroe County have adopted recommendations and requirements to limit opportunities for spread through such measures as limiting crowd size, facial covering rules and recommendations, closing bars and limiting restaurant service; and limiting other activities where people come into contact with other people with whom they have not quarantined; and

WHEREAS, the Florida Fish & Wildlife Commission (FWC) has established a 2-day sport season for recreational harvest of spiny lobster; and

WHEREAS, this 2-day mini season precedes the opening of commercial lobster season so as to reduce conflicts between recreational and commercial fishermen competing for lobsters if there was but one opening day of lobster season; and

WHEREAS, in 2020, the lobster mini-season falls on July 29 and 30 and the regular lobster season begins on August 6, 2020; and

WHEREAS, FWC has advised that, by far, Monroe County is the county most impacted by mini-season in terms of the number of people participating in the season; and

WHEREAS, experience has demonstrated that the annual mini-lobster season attracts a large number of visitors to Monroe County; and

WHEREAS, while the actual act of harvesting of lobster involves scuba diving, free diving, snorkeling, and bully netting, activities that do not directly facilitate the spread of the virus, many of the people doing the harvesting will engage in social activities in off-hours that risk the community spread of the virus, including the patronizing of local restaurants and bars; and

WHEREAS, experience has demonstrated that many recreational lobster fishermen also flock to the Keys at the opening of the regular lobster season in early August; and

WHEREAS, on June 26, 2020, the Florida Department of Business and Professional Regulation (DBPR) issued Emergency Order 2020-09, which closed bars for all but carry out service, as amended on July 1, 2020; and

WHEREAS, DBPR premised that order on the statement that bars serve as venues for spread of the virus because people tend not to engage in social distancing and tend to mix with people with whom they have not been quarantining; and

WHEREAS, the local effect of DBPR's order is that people who used to gather at bars have shifted to restaurants as the preferred spot for late night congregating without engaging in social distancing; and

WHEREAS, the Board finds it is in the best interest of public health, safety and welfare of the residents and workers of, and visitors to, the Florida Keys to prohibit bars and restaurants from operating during the hours of 11 P.M. until 5 A.M. during the period beginning 11:00 P.M. on July 24, 2020, the Friday before mini-season and concluding at 11:00 P.M. on Wednesday August 19, 2020; and

WHEREAS, the Board finds that the inconvenience of an ordinance requiring the late night closures of bars and restaurants during this two-week period is minimal compared to the risk to the health, safety, and welfare of the community were no such rule imposed and is preferable to requesting the FWC cancel or reschedule mini-lobster season; and

WHEREAS, the Board finds implementation of this ordinance is necessary for the preservation of the health, safety, and welfare of the community; and

WHEREAS, several other State and local jurisdictions across the country have mandated curfews for restaurants and bars in their response to COVID-19; and

WHEREAS, Section 1(f) of Article VIII of the Florida Constitution vests the Board with the authority to enact ordinances having countywide effect that are not inconsistent with state law, provided that such ordinance shall not be effective within a municipality that has adopted an ordinance in conflict with the County ordinance, to the extent of such conflict; and

WHEREAS, the State of Florida has not preempted local governments from regulating in the field of minimum health requirements with respect to COVID-19; and

WHEREAS, adopting regulations via ordinance allows for enforcement through a variety of mechanisms including a quasi-criminal offense under F.S. 125.69(1); civil and administrative remedies under chapter 162, Florida Statutes; and enforcement actions for injunctive and other relief in circuit court; and

WHEREAS, the Florida Legislature has declared that “[s]afeguarding the life and property of its citizens is an innate responsibility of the governing body of each political subdivision of the state” such as Monroe County and its five municipalities; F.S. 252.38; and

WHEREAS, F.S. 252.38(3)(a)(5) gives the County the power and authority to waive the procedures and formalities otherwise required of the political subdivision by law in order to take whatever prudent action is necessary to ensure the health, safety, and welfare of the community; and

WHEREAS, F.S. 125.66(3) permits the Board to waive the notice requirement and adopt an ordinance by 4/5th vote in emergency circumstances;

WHEREAS, at their July 27, 2020 meeting, the Board determined the prohibitions of *Ordinance No. 023-2020* should not prevent a restaurant from selling food to customers via drive through, delivery and/or curbside service during the hours of 11 P.M. and 5 A.M.; and

WHEREAS, the Board further desired to provide an option for a person issued a citation, who does not wish to contest the violation, to allow that person to pay a fine of \$250 to the Clerk of the Court in lieu of contesting the citation;

WHEREAS, the Board held a public hearing on August 19, 2020 to consider extending *Ordinance No. 023-2020*, as amended by *Ordinance No. 025-2020*, or allowing it to sunset as scheduled; and

WHEREAS, at the August 19, 2020 public hearing, the Board decided that current conditions supported extending the ordinance but moving back the time of closure to midnight;

NOW THEREFORE, BE IT ORDAINED BY THE BOARD OF COUNTY COMMISSIONERS OF MONROE COUNTY, FLORIDA:
