FLORIDA

2021 ANNUAL CONFERENCE & EDUCATIONAL EXPOSITION

Presented by aetna™

June 29 - July 2, 2021 • Hyatt Regency Orlando • Orange County

#FACinAction

The Florida Association of Counties announces the Managed Information Technology (IT) Services Program to assist counties that need IT support explicitly tailored for county government, through Inspired Technologies as the Endorsed Provider. Offerings scale from augmentation of existing IT staff to complete support of the IT environment.

Inspired Technologies Offers

- Tier 1, 2, & 3 IT support offerings
- GSA Schedule 70 Contract Vendor
- State of Florida Contract Vendor (TIPS and IT Services)
- Microsoft Services and Solutions Provider
- Infrastructure cabling including fiber construction

www.inspired-tech.net

At **Florida Power & Light Company** we are **working together with the communities we serve** to make Florida an even better place to raise a family and do business.

CHANGING THE CURRENT.

WELCOME LETTER FROM THE MAYOR

Welcome!

It is my sincere pleasure to welcome you back to Orange County for the 2021 Florida Association of Counties Annual Conference. The Orange County Board of County Commissioners and I are honored that you continue to choose our community to host this important annual event.

Throughout my four decades of public service in Orange County, first as Police Chief, then Public Safety Director, Sheriff, and now as Mayor, I have witnessed firsthand the instrumental role local governments have in supporting their community and how home rule authority has empowered them to make the necessary advancements. As we emerge from a year of crisis and aim beyond recovery and towards progress, local leadership is more important than ever.

Since becoming Mayor, one of my primary focuses has been forming partnerships with a regional emphasis. Events like these provide the opportunity to work together not only regionally but also on a statewide level. I have no doubt that the work done throughout this week and during future conferences will benefit all Floridians. I look forward to what we can achieve together.

As you gather for the conference, I hope you set aside some time to explore our world-class hospitality and entertainment amenities. Orange County is proud to be a top destination for visitors worldwide and home to the second-largest convention center, finest hospitality, exciting theme parks, sporting venues, and cultural attractions.

Thank you again for choosing Orange County to host your annual conference, and I hope you enjoy your time here!

Sincerely,

Jerry L. Demings, Mayor

GENERAL INFORMATION

ATTENDEE REGISTRATION (FOYER)

Tuesday, June 29	2:00 p.m. – 6:00 p.m.
Wednesday, June 30	7:00 a.m. – 5:00 p.m.
Thursday, July 1	7:45 a.m. – 5:00 p.m.

EXHIBIT HALL

Florida's counties must constantly find ways to increase efficiencies while saving tax dollars. This year's exhibit hall is set up to help you and your county do just that. More than 100 exhibitors are here to show off the latest technologies and systems to improve the services your county provides while saving money. Make sure to explore, ask questions and build relationships that ensure you take great solutions home.

The Exhibit Hall will be open the following days and times:

Tuesday, June 29	7:00 p.m. – 9:00 p.m.
Wednesday, June 30	8:00 a.m. – 7:00 p.m.

BADGES

All conference attendees must wear name badges for admission to all sessions, educational exhibits, meal events and social events.

ATTIRE

Business casual is appropriate for the entirety of the conference.

CONFERENCE PROGRAMMING

TUESDAY, JUNE 29

The Band is Back Together Welcome Event!

7:00 pm – 9:00 pm | Exhibit Hall

It's been a long time since we've seen you and it's time to celebrate – safely. Join us in the Exhibit Hall for an evening of fun, music and dance! While you're dancing in the "streets" make sure you stop by the FACT booth and wish Ken Moneghan a happy retirement! He's retiring after 32 years of service to FACT and Florida's counties.

THIS IS KEN

Opening General Session

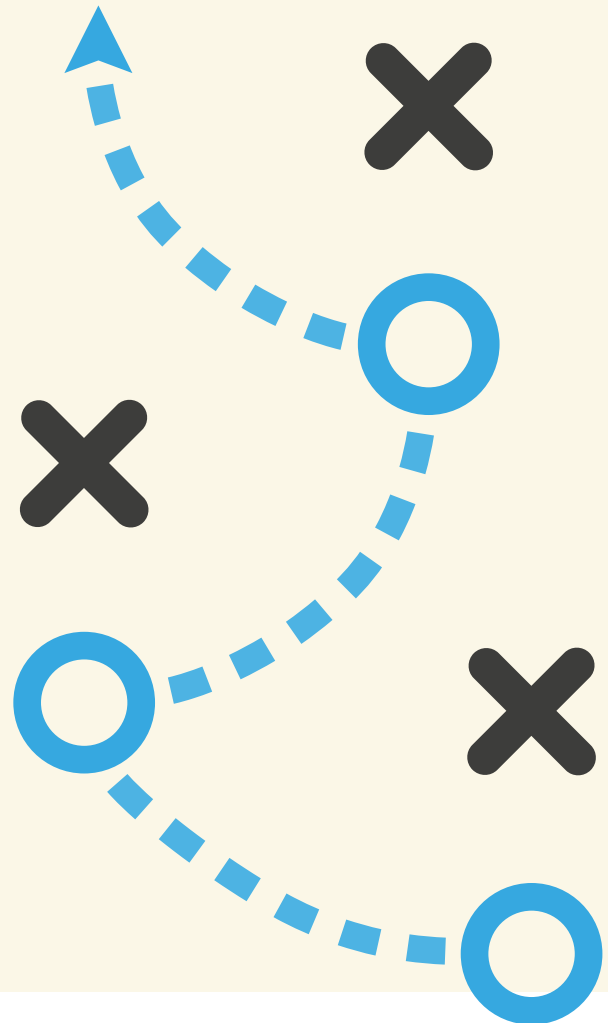

10:30 am – 12:00 pm | *Florida Ballroom*

Joe Theissman is an entrepreneur and the former star quarterback for the Washington Redskins. Since retiring from the NFL, Theissmann has become a staple of sports broadcasting.

Theissmann played football at the University of Notre Dame, where he received All-American honors for his efforts in leading the Fighting Irish to consecutive Cotton Bowls and was the runner up for the Heisman Trophy. As a pro, in addition to earning a Super Bowl Championship ring with the Washington Redskins, Theissmann played in 163 consecutive games from 1974-1985, was a two-time Pro Bowl selection, and was named the NFL's "Most Valuable Player" in 1983.

In addition to his accomplishments on the gridiron, Theissmann is an inspiration and a role model, having participated in numerous philanthropic projects. In 1982, Theissmann was awarded the NFL's "Man of the Year" title for his efforts in improving his community and his dedication to the health and welfare of children, an inspiring and infectious mindset that he leaves with his audiences.

Drawing from personal experience, Joe knows how to deal with the challenge of change. On November 18, 1985, he was on top of his game--a two-time Pro Bowl player and the most productive quarterback in the history of the Washington Redskins. Later that evening, he found himself in a hospital bed with a compound fracture to his leg, shattering both his career and his boyhood dream. At age 35, he was faced with starting over his personal life and professional career. Joe helps audiences tackle change by keeping a positive mental outlook and committing to a vision that guides you to the top.

ACCESS 67: Expanding Broadband Access in Florida

1:45 pm – 3:15 pm | *Orlando L*

The ACCESS 67 Initiative of the Florida Association of Counties (FAC) is focused on policy solutions to assist rural and urban communities deliver effective public safety, healthcare, economic development and education. The COVID-19 pandemic further illustrated the digital divide leaving unserved and underserved communities disconnected from distanced learning, remote work, and telehealth opportunities.

The ACCESS 67 panel will offer local, state, and federal perspectives on the challenges of closing the digital divide through public policy. Recent state legislative developments will be discussed highlighting the efforts of the Florida Legislature through the Department of Economic Opportunity's Office of Broadband. Industry and policy leaders will discuss solutions to address the impacts of the lack of ACCESS to critical telecommunication and information technology resources in Florida communities.

Policy topics to be covered include: general/state of access in Florida's counties, Broadband federal recovery funding, local solutions (county initiatives), state legislative/executive/DEO developments, challenges/opportunities of expansion, mapping, and infrastructure.

Moderator: Okeechobee County Commissioner Terry Burroughs

Panelists:

NACo President Gary Moore, Judge/Executive, Boone County, Kentucky

Senator Lorraine Ausley, Florida Senate District 3

Brad Swanson, President of Florida Internet and Television

Zack Dunlap, Vice President of Business Development, Inspired Technologies, Inc.

Integrity • Knowledge • Service

Assessing and Maintaining Your Water and Wastewater Utility Systems is Important. **Now More Than Ever.**

Brian Icerman, Senior Vice President

During the 2020 and 2021 legislative sessions, the Florida Legislature passed the Clean Waterways Act (2020) and other bills that increased the restrictions and requirements associated with wastewater and stormwater infrastructure. The increased emphasis on asset management, condition assessment, infiltration and inflow reduction, and septic tank and surface water discharge elimination will put significant pressure on local government resources and citizens that support them.

What This Means for You?

- Increased focus on preventing overflows and back-ups
- Additional focus on reducing septic tanks in your communities
- Improving the management, operation, and maintenance of your collection systems
- Assuring your sewer system has capacity for meeting your community's growth and development needs
- Planning for elimination of nonbeneficial surface water discharge of reclaimed water

How Can We Help?

Jones Edmunds' comprehensive approach focuses on legislative priorities and long-term regulatory compliance. This approach offers many benefits:

- Analyzes your system's capacity to prevent overflows and back-ups
- Helps you effectively address sanitary sewer overflow events
- Makes your collection systems easier to manage, operate, and maintain
- Develops big picture long-term plans to eliminate septic systems and surface water discharges

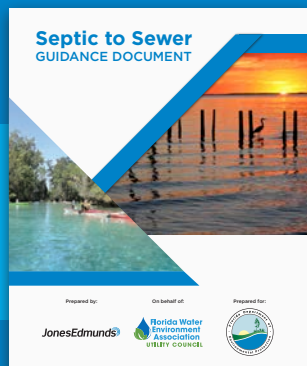

Terri Lowery, Senior Vice President

Political Training Institute Part One

1:45 pm – 3:15 pm | *Orlando M*

Join former Secretary of State and political consultant Sandra Mortham for another two-part Political Training workshop, which will begin with the dynamic husband and wife duo of Christina and David Johnson.

Many county commissioners may think about running for the legislature once their county term is completed. If you have ever considered running for a higher office, this is a workshop you won't want to miss. This fantastic session will focus on the differences in county vs state offices that you need to consider when contemplating the change. Redistricting is another challenge to consider and discussion will be held about the changes that redistricting will bring to areas of our state.

Making Sense of Blockchain and Cryptocurrency Technology

3:45 pm – 5:15 pm | Orlando L

The growth of Blockchain technology that provides an encrypted platform to transmit value and data across a wide variety of sectors, such as health care, finance, transportation, and many others has captured the attention of both private and public entities. Blockchain use cases continue to expand and grow. One of the use cases most widely known is cryptocurrency or digital currency. Led by Bitcoin, the cryptocurrency industry has exploded with staggering market capitalizations estimated to be over \$1 trillion. Unlike U.S. Treasury currency, digital currencies are decentralized, encrypted and unregulated and there are still limited consumer protections. However, major financial institutions are recognizing that these cryptocurrencies are becoming widely accepted by the public and businesses alike and used for various transactions. Many countries and state and local governments are still trying to find the best approach to regulate or restrict the use of cryptocurrency until more is understood about their risks and benefits. Some local governments are exploring specific applications for the use of cryptocurrency and blockchain use cases in general. This workshop will help explain the

history and technology of Blockchain along with one of its most widely used applications - cryptocurrency - so counties can make more informed decisions as these technologies grow.

Moderator: Dr. Jeff Sharkey
President/CEO, Capitol Alliance Group, Inc.

Panelists:

Jason Holloway, CEO,
DLT Consulting

David Metcalf, PhD., General
Partner & Managing Director,
Global Blockchain Ventures,
Inc.

WEDNESDAY, JUNE 30

Political Training Institute Part Two

3:45 pm – 5:15 pm | Orlando M

The second part of this workshop will feature former county commissioners who are now serving in the Legislature as well as former State Legislators who are now serving as county commissioners. This panel of distinguished state and local elected officials will share their experiences about running for office and what it takes to win. If you have ever considered running for higher office, then you don't want to miss this Part 2 of this workshop which is filled with practical insights and information.

WEDNESDAY, JUNE 30

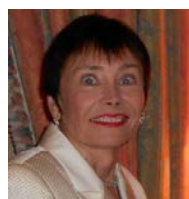

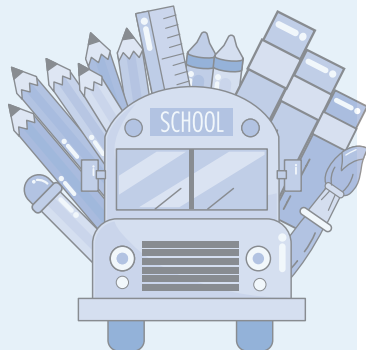

"Stuff the Bus" Charity Event & Reception

5:30 pm – 7:00 pm | Exhibit Hall

Join your colleagues in the Exhibit Hall as we take a moment to stuff backpacks full of school supplies to make sure some of our kids get the school year started on the right track. A special thank you to United Healthcare for hosting this event and providing backpacks. Grab a backpack as you enter, and as you stroll the exhibit hall fill it with the listed items, pencils, markers, paper, etc. When your backpack is full, drop it off in the "school bus!"

Backpacks will be donated to school children in Wakulla County.

Sports as an Economic Driver

8:15 am – 9:45 am | Orlando L

With Florida sports creating more than \$57 billion in economic impact while providing more than 580,000 jobs and attracting 16 million out-of-state visitors every year, the state has deservedly earned the moniker “Sports Capital of the World.” The Florida Sports Foundation strives to enhance that reputation by assisting Florida’s local communities with securing, hosting, and retaining sporting events that generate considerable economic impact through grant programs and other meaningful initiatives. Data, insight, and successes of the partnerships will be shared. The discussion will focus on the landscape of Sports Tourism and Development and its value as an economic driver for Florida communities.

THURSDAY, JULY 1

The Reunited States: How Hometowns Can Save America (and themselves)

8:15 am – 9:45 am | *Orlando M*

Americans don't agree on much these days — except that we're very dangerously divided. Too often the fallout from our growing enmity in national politics rolls directly downhill, impacting the ability of local communities to do the usual work of a government of, by and for the people — as every policy disagreement becomes a pitched battle between good and evil to gain ultimate control of “Winterfell.” What if there's a real alternative to simply submitting to these current destructive trends, one that embraces the unique power of hometowns to grow relationships across division and reestablish civic trust? We'll be joined by two past FAC presidents — one from each side of the political divide — and the founder of a homegrown Florida effort to find a better way.

Moderator: Bill Mattox, James Madison Institute

Panelists:

Liz Joyner, Founder & CEO of
The Village Square

THURSDAY, JULY 1

American Rescue Plan

10:00 am - 11:30 am | Orlando L

Join the Executive Director of the National Association of Counties (NACo), Matt Chase, as he gives a comprehensive breakdown on the American Rescue Plan's Coronavirus State and Local Fiscal Recovery Fund. On March 11, 2021, the American Rescue Plan Act was signed into law containing approximately \$350 billion in federal assistance for our states, territories, tribes, counties, and municipalities. Of the funds, \$65.1 billion is allocated with direct funding to counties.

Across the nation, counties have been on the frontlines every day fighting against COVID-19 and its impacts. Local governments have led the way in mitigation and recovery efforts to best support the community and its needs. With over \$4 billion estimated in direct aid to Florida counties, the Recovery Funds were essential to support communities in both urban and rural areas across

the state struggling with the long-term effects of COVID-19 and unforeseen costs that will continue over the next few years.

Policy topics to be covered include: overview of the American Rescue Act, U.S. Treasury Guidelines

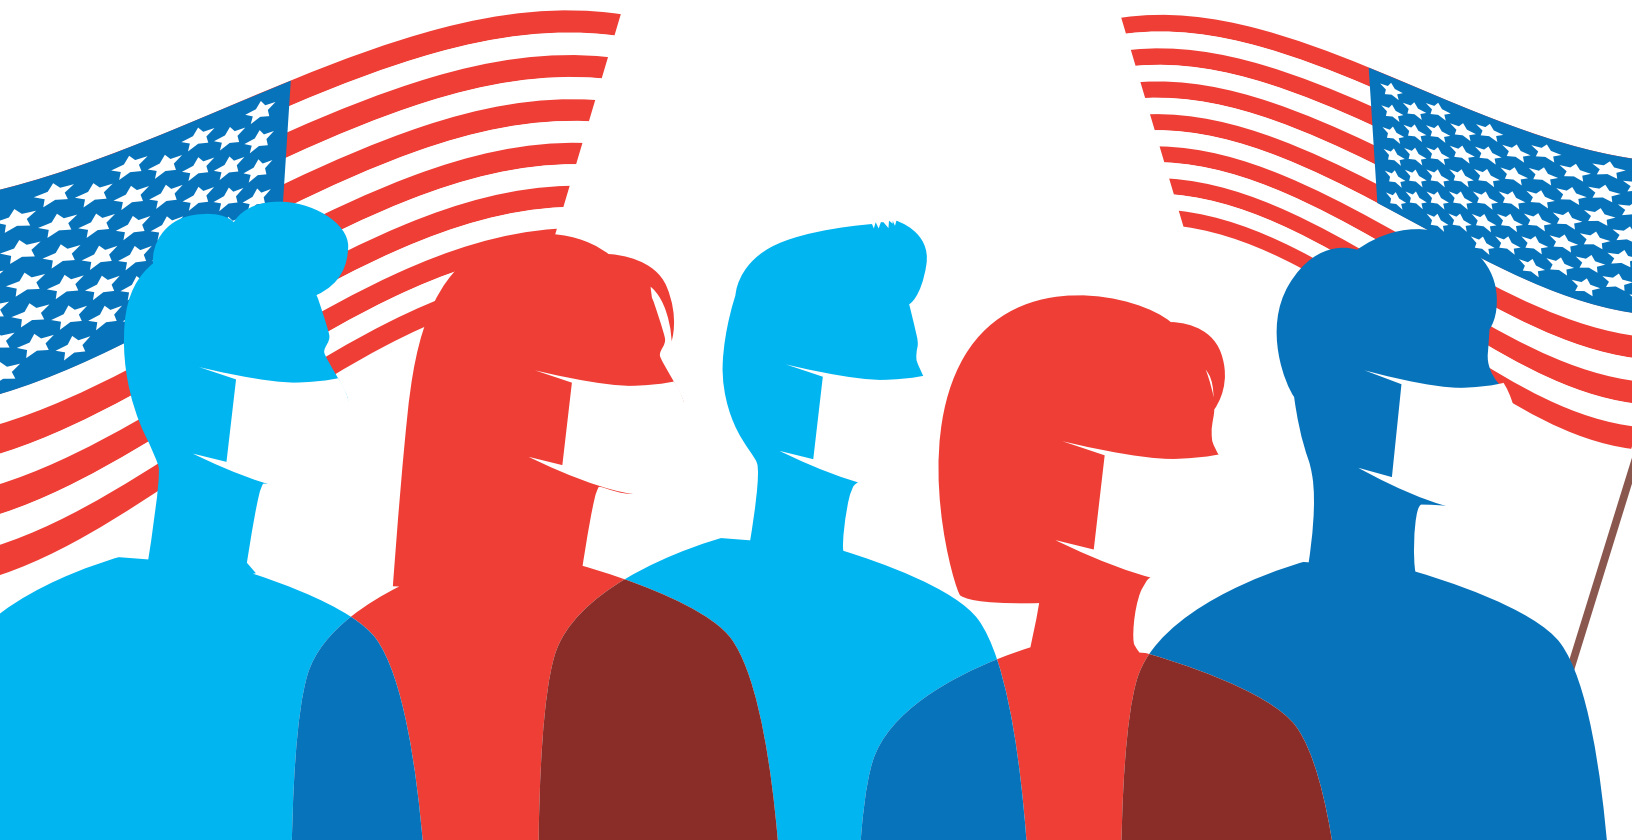

Speakers:

Commissioner Melissa
McKinlay
Palm Beach County, FAC
President

Matt Chase, President and
CEO, National Association of
Counties

THURSDAY, JULY 1

Litigating the Opioid Crisis

10:00 am - 11:30 am | Orlando M

Since 1999, over 500,000 Americans have died from an overdose involving opioids. More specifically, some 247,000 of these deaths involved prescription opioids. Between 1999-2019, deaths from prescription opioids more than quadrupled. The Centers for Disease Control and Prevention has estimated that the economic burden from prescription opioid misuse alone in the U.S. costs \$78.5 billion annually, including the costs of healthcare, lost productivity, addiction treatment and criminal justice. More than 2,800 lawsuits have been brought by government entities against opioid manufacturers, distributors, marketers, major national pharmacies, and physicians, including the state and about 100 local governments in Florida. These cases have been consolidated before U.S. District Court Judge Dan Polster, U.S. District Court for the Northern District of Ohio, (i.e., National Prescription Opiate Litigation, MDL 2804; Case No. 1:17-md-02804-DAP). This program will provide an engaging discussion regarding the ongoing national opioid crisis, effects on our communities and county governments, and provide an update on litigation and settlement efforts, including the Florida Attorney General's proposed Memorandum of Understanding which established an allocation methodology for distributing the funds Florida is likely to receive in settlement of pending claims.

THURSDAY, JULY 1

Artificial Intelligence and its Impact on Counties: How UF/IFAS is Changing the Way We Think

1:45 pm – 3:15 pm | Orlando L

The University of Florida's Institute of Food and Agricultural Sciences (UF/IFAS) is a federal-state-county partnership dedicated to developing knowledge in agriculture, human and natural resources, and the life sciences. UF/IFAS provides research and development for Florida's agricultural, natural resources and related food industries, which combined contributed \$150 billion to the state economy in 2019. With offices in all of Florida's 67 counties, including 12 Research/Education Centers (RECs) and Research and Demonstration Sites (RDSs), the geographic footprint of IFAS is extensive. What is perhaps equally extensive is the range of its research and programs that include natural resource management, agribusiness and food supply, aquaculture, forestry, disaster preparedness, water quality, landscaping, and even Artificial Intelligence

(AI). In this workshop, learn how AI will improve health in our counties, while incorporating AI concepts in 4-H programs to prepare our youth for AI jobs in the future.

Speaker

Dr. J. Scott Angle, Vice President,
Agriculture and Natural
Resources

THURSDAY, JULY 1

Social Security: Decision of a Lifetime

1:45 pm – 3:15 pm | Orlando M

Nationwide Social Security program offers an end-to-end, client-ready solution that combines education on Social Security benefits, a suite of client engagement materials, a comprehensive tool for guiding well-informed filing decisions, and broad support for answering commonly asked questions and developing income plans.

Speaker

Timothy J. O'Mara, Vice President
Nationwide Retirement Institute

THURSDAY, JULY 1

\$15 Dollars an Hour: Preparing your county for the implementation of Amendment 2

3:30 pm – 5:00 pm | *Orlando M*

Regardless of how you feel about a mandatory \$15 minimum wage, Amendment 2 was approved by Florida voters and is now the law of the land. Does your county have a plan to implement the \$15 minimum wage? How will your county prepare for the fiscal realities of a \$15 minimum wage? How will you retain existing employees and recruit the new talent necessary to stay competitive in an ever-changing marketplace?

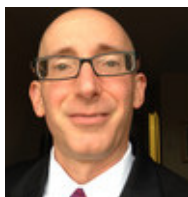

During this workshop, you will hear from experts who will share valuable insight on how best to implement Amendment 2. Hear important first steps, best practices, funding options and strategies for success as well as some pitfalls to avoid. Please feel free to bring your drinks and snacks back to the room for this pre-happy hour panel discussion before heading out to the awards dinner to follow.

ATTORNEYS AT LAW

Derreck Kayongo, Ugandan Refugee Turns Soap into Hope

Inspired by his experiences as a refugee in Kenya, and knowing that in-crisis communities are often without any soap at all, Derreck Kayongo and his wife Sarah formed Global Soap, a life-changing international aid organization that collected discarded soap from hotels, reprocessed it and distributed it to vulnerable populations worldwide.

In 2015, Global Soap joined forces with Clean the World, a global health leader in water, sanitation, and hygiene (WASH) and sustainability. Clean the World's foundation continues to develop programs to support children and their families in at-risk communities around the world and has contributed towards a 60% reduction in the death rate of

children under the age of 5 due to hygiene-related illnesses.

Though most well known as a 2011 CNN Hero and founder of the Global Soap Project, Kayongo is an expert in environmental sustainability and global health, as well as a former CEO of the National Center for Civil and Human Rights.

Election of 2021 - 2022 Officers and Board of Directors

One commissioner from each of the odd-numbered Florida Senate Districts will be elected for the odd-numbered Board seats. These elections are determined through district caucuses at the Annual Business Meeting on Friday, July 2, from 8:30 am to 10:00 am.

The odd-numbered district Board members will serve a two-year term, until Annual Conference in 2023. The even-numbered district Board members elected at Annual Conference in 2020 will serve until Annual Conference 2022.

Commissioner Ralph Thomas (Wakulla) will begin to serve as President during the Annual Conference. At the Annual Business Meeting, FAC's general membership will also elect a President-Elect, a 1st Vice President and a 2nd Vice President. The candidates for these offices are commissioners who have met the criteria as defined in the FAC Bylaws.

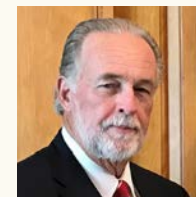

A voice vote approving the following candidates will be taken:

President-Elect:
Lee Constantine (Seminole)

1st Vice President:
Bill Truex (Charlotte)

2nd Vice President Candidate:
Terry Burroughs (Okeechobee)

Nationwide, through its affiliated retirement plan service and product providers, has an endorsement relationship with the National Association of Counties (NACo). In addition, Nationwide may receive payments from mutual funds or their affiliates in connection to the variety of investment options offered to public sector retirement plans through variable annuity contracts, trust or custodial accounts. For more detail about Nationwide's endorsement relationships and/or payments Nationwide receives, please visit NRSforu.com.

Nationwide Retirement Solutions (Nationwide) partners with the National Association of Counties (NACo) to provide counties and their employees with a competitive deferred compensation program. As part of this partnership, Nationwide pays a fee to NACo in exchange for NACo's exclusive endorsement, marketing support and program oversight of Nationwide products made available under the program. For more information, including fees paid, Nationwide encourages you to visit NRSforu.com.

Nationwide, the Nationwide N & Eagle and Nationwide is on your side are service marks of Nationwide Mutual Insurance Company. © 2019 Nationwide

BRYANT MILLER OLIVE PROUDLY SUPPORTS THE FLORIDA ASSOCIATION OF COUNTIES

OUR NAME IS EASY TO REMEMBER. OUR WORK IS HARD TO FORGET.

**Bryant
Miller
Olive**
ATTORNEYS

For almost 50 years, Bryant Miller Olive has represented governments, businesses and agencies in legal matters relating to public finance, state and local government law, complex transactions, project finance, and litigation. The Firm has served as Bond Counsel on more transactions than any other firm in the Southeast over the past 25 years, and more than any other firm in Florida over the past decade. We represent cities and counties around the state, dealing with issues ranging from charter revisions to employment issues. The firm also helps clients in such areas as labor and employment law, corporate trusts, real property and commercial transactions, and new markets tax credits. Our current focuses include assisting public entities with the creation of Public Private Partnerships, specifically in transportation, community redevelopment and higher education.

THE PROMISE OF 5G.

Next generation networks will ultimately change the way we work and live. With 5G, we believe we'll connect devices faster, have lower latency, and handle more data than we ever have. In Florida, we have expanded 5G to parts of 62 counties, made possible by the more than 5.8 million strand miles of fiber optics AT&T has deployed across the state.

At AT&T, we are evolving our networks today to enable the promises 5G has for tomorrow.
