Connecting America:

AT&T's Commitment to Closing the Digital Divide

The main title of the slide is centered on the left side. It consists of two lines of text: 'Connecting America:' in a large, bold, blue font, and 'AT&T's Commitment to Closing the Digital Divide' in a large, bold, black font.

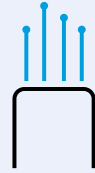

Investing to Expand Our Network: AT&T invested more than **\$130 billion** in U.S. infrastructure over the last 5-years to connect Americans.

30 Million

Businesses & homes we have committed to bringing access to AT&T Fiber by 2025

350

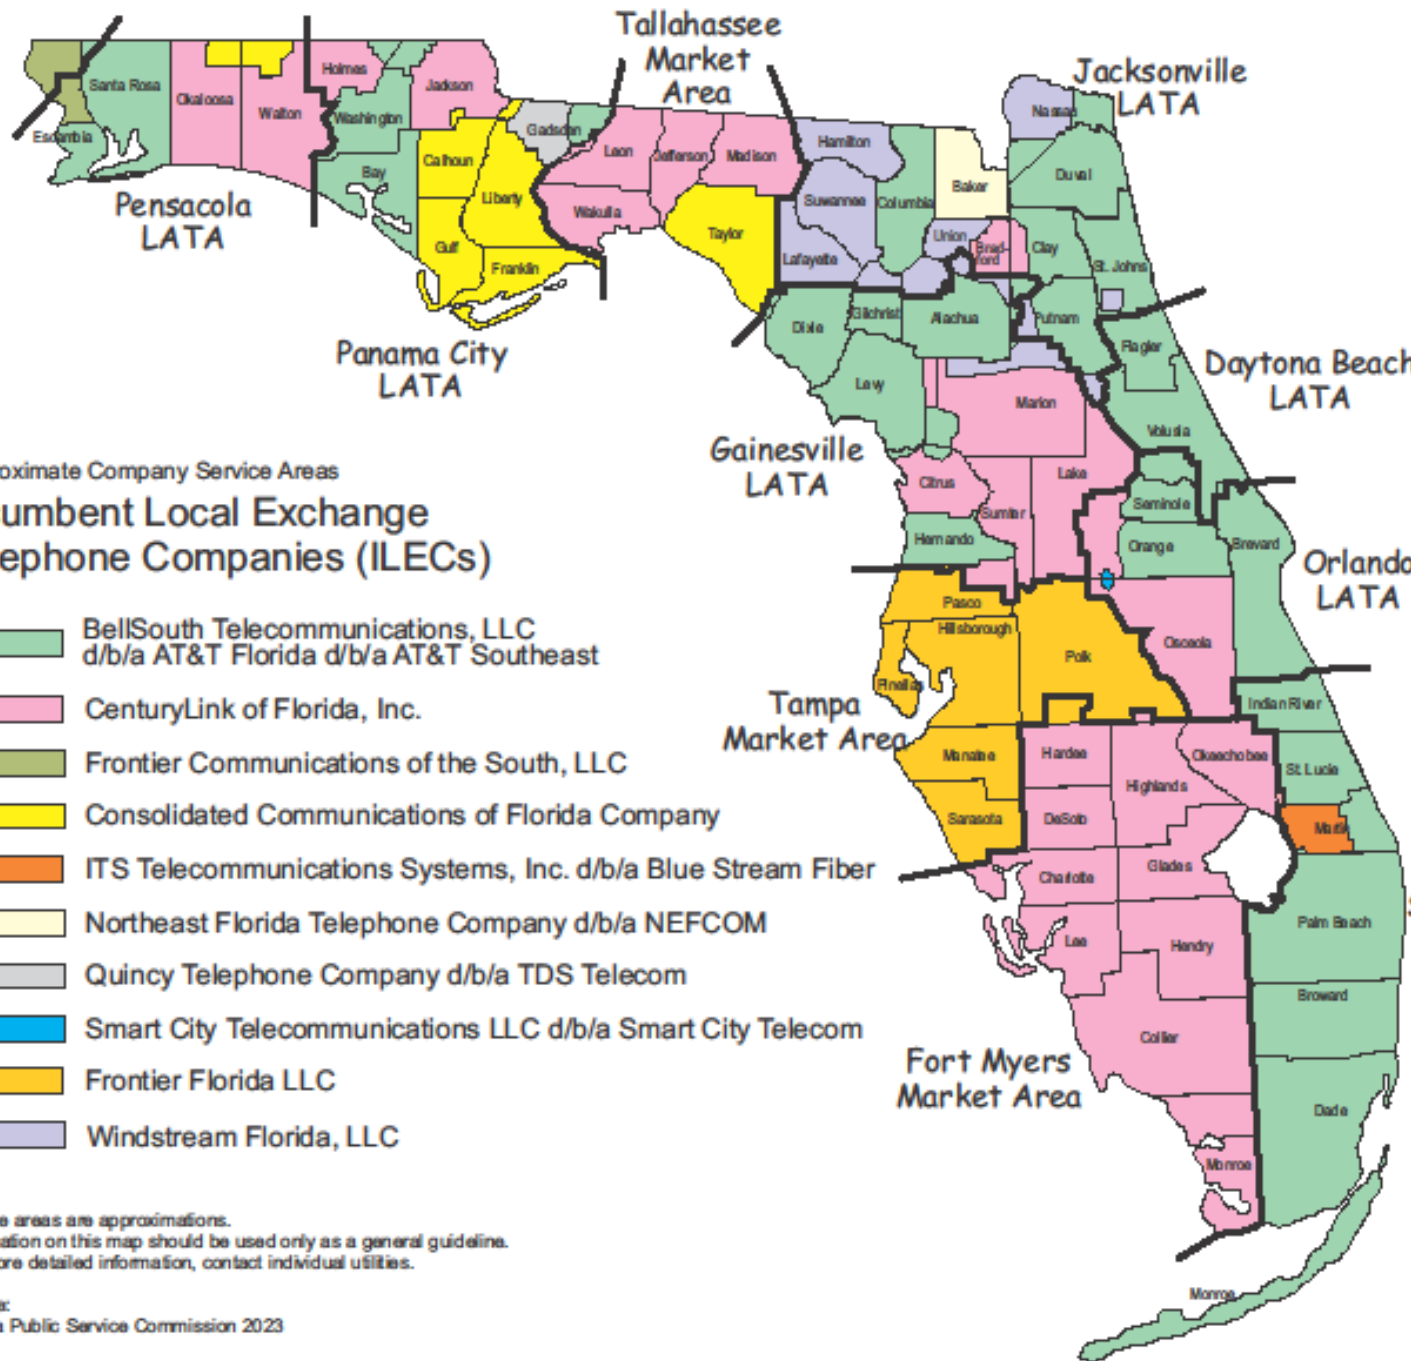

The average number of locations we are expanding fiber to every hour across the country.

5 GIGS

AT&T Fiber is the fastest internet among major providers, offering customers symmetrical speeds of up to 5-Gigs.

Approximate Company Service Areas
Incumbent Local Exchange Telephone Companies (ILECs)

- BellSouth Telecommunications, LLC d/b/a AT&T Florida d/b/a AT&T Southeast
- CenturyLink of Florida, Inc.
- Frontier Communications of the South, LLC
- Consolidated Communications of Florida Company
- ITS Telecommunications Systems, Inc. d/b/a Blue Stream Fiber
- Northeast Florida Telephone Company d/b/a NEFCOM
- Quincy Telephone Company d/b/a TDS Telecom
- Smart City Telecommunications LLC d/b/a Smart City Telecom
- Frontier Florida LLC
- Windstream Florida, LLC

Service areas are approximations.
 Information on this map should be used only as a general guideline.

Connecting Florida: AT&T invests **more than \$1 billion annually** to expand & maintain its Florida networks.

\$3.1+ Billion

Invested in Florida over the last 3-years.

1.9+ Million

Businesses & homes with access to AT&T Fiber in Florida

6.8+ Million

Strand miles of fiber across Florida

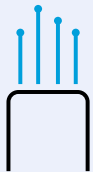

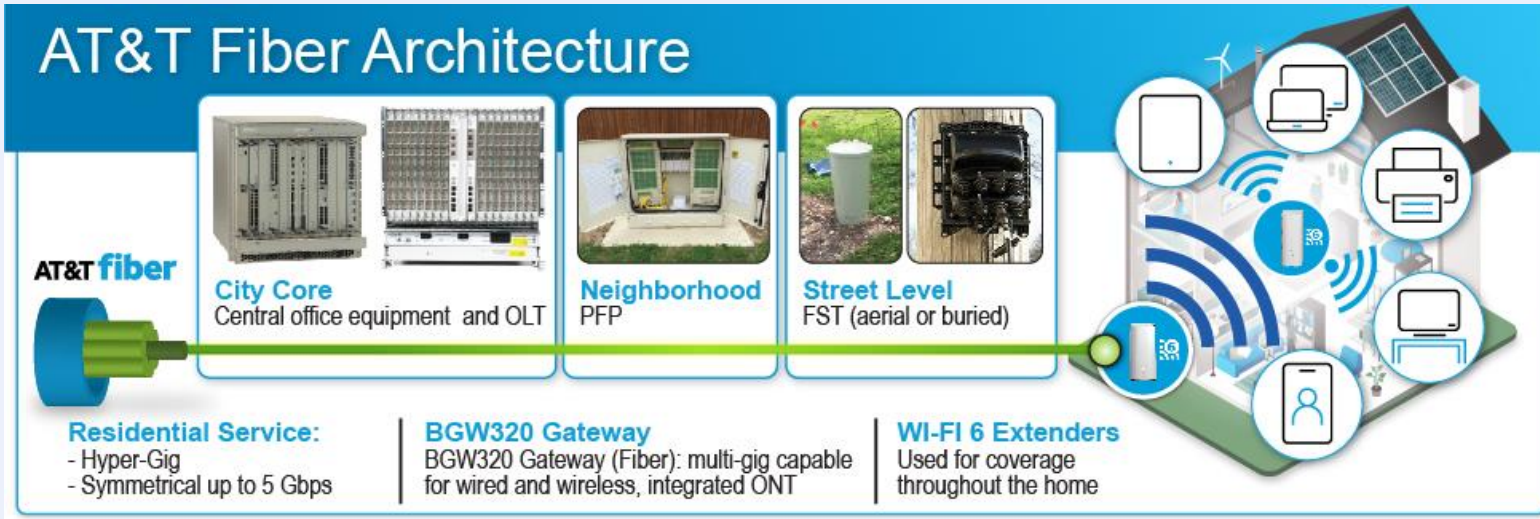

2,350+

New wireless sites constructed in the last 3-years in Florida.

AT&T has the experience to help Florida solve the digital divide with a future proof network.

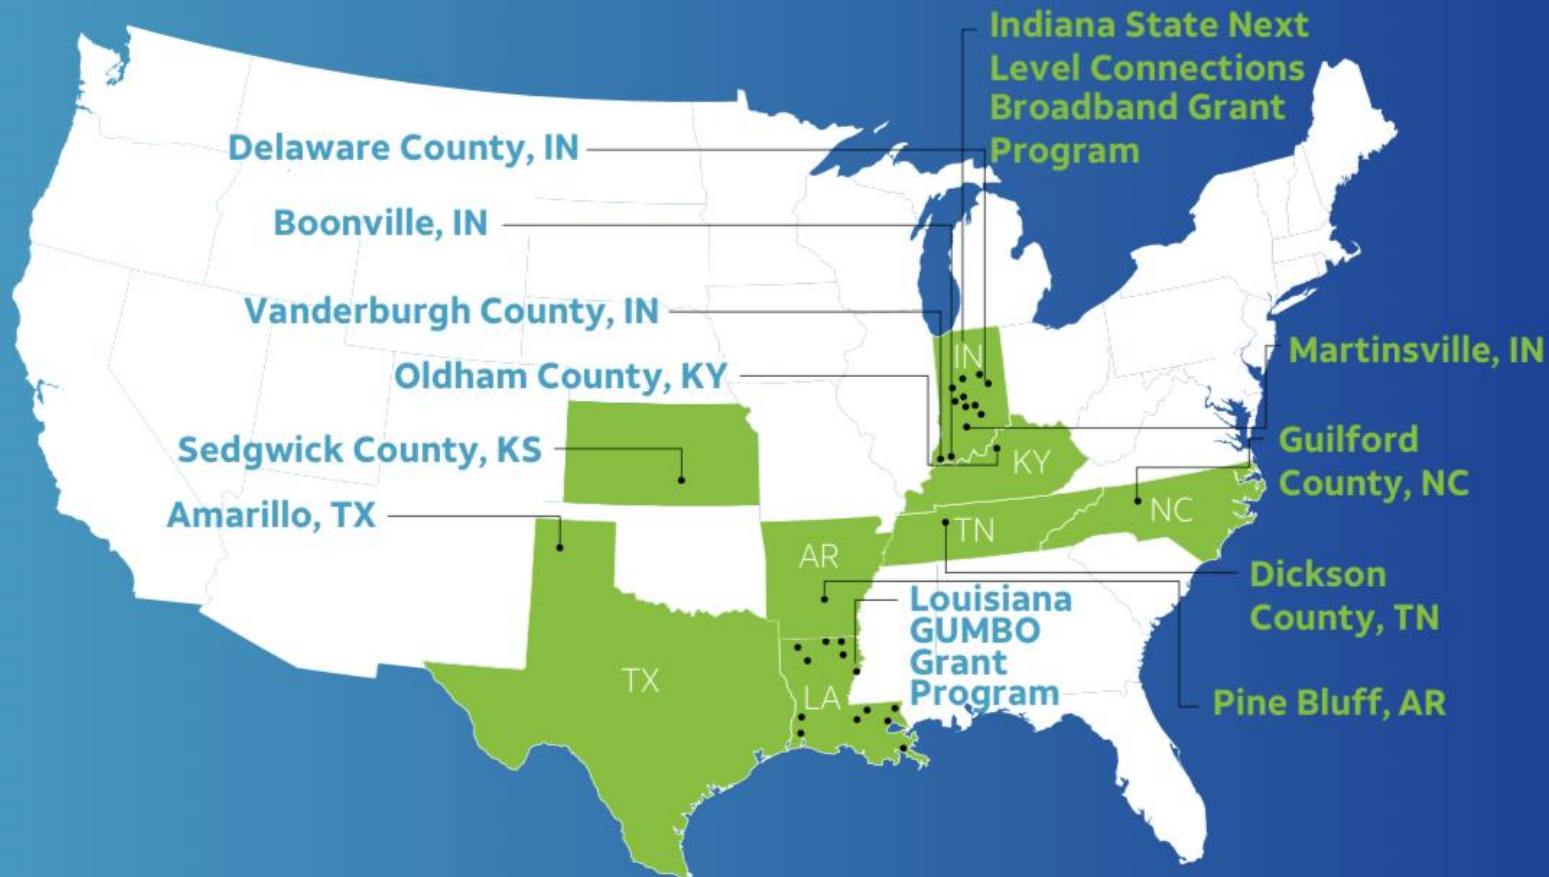

AT&T deploys XGS-PON FTTP networks with symmetrical speeds **scalable to 10 Gbps**.

The design is comprised of Optical Line Terminating equipment (OLTs) located primarily in AT&T Central Offices.

AT&T FIBER BROADBAND SUBSIDY PROJECTS

Workforce Training: Our country needs trained technicians & network specialist, and we need them quickly.

AT&T and Corning joined forces to create a new training program to install a growing fiber broadband network across America.

- It is estimated the industry will need another 850,000 workers through 2025.
- The program is already offering its initial class in North Carolina and aims to train 50,000 American workers over the next five years.

Affordability - What is AT&T doing?

'Access from AT&T' for \$30 per month

AT&T has introduced a new low-cost plan to its 'Access from AT&T' program providing internet speeds of up to 100 MB for \$30 a month to eligible households. When combined with ACP, eligible households can reduce their monthly bill for home internet to \$0.

Affordable Connectivity Program (ACP)

Federal ACP benefit allows qualified households to lower their home internet or wireless costs by up to \$30 per month, or by up to \$75 per month if they are on qualified Tribal Lands.
