The OnSyte Distributed Sewer Network

Real-time supervisory control on every unit

Municipal-Grade Wastewater Service with NO PIPES

A universal solution - from replacing septic tanks to servicing new developments -for a cleaner, greener Florida. By providing a virtual connection through the use of wireless data networks, the Distributed Sewer Network functions like a wastewater utility, but without the need for a physical sewer connection to each home.

BENEFITS AND FEATURES:

- Half the cost of traditional septic-to-sewer
- Immediate positive impact on springs and estuaries
- Nutrient reduction to near AWT levels
- Reach remote locations without rebuilding roads and other infrastructure
- Regulatory streamlining - a single DEP permit for hundreds or thousands of units
- Utility scale deployment and operation, continuously monitored and controlled from a single web portal

Powerful Online Budgeting Software

Built for Florida Counties

“Digital Budget Book is so much easier than the Word document that took us about five weeks to do with six different people. So now we just go in, we edit it, we cross-check each other, and boom. We’ve saved so much in staff time just in transferring.”

- Cindy Marihugh, Budget Analyst, Sumter County, FL

Powerful Online Budgeting Software

Built for Florida Counties

“Digital Budget Book is so much easier than the Word document that took us about five weeks to do with six different people. So now we just go in, we edit it, we cross-check each other, and boom. We’ve saved so much in staff time just in transferring.”

- Cindy Marihugh, Budget Analyst, Sumter County, FL

GOVERNMENT FINANCE PROGRAM

New construction, repairs and improvements can be complicated. Financing with Florida Local is not.

Secure, reliable, low-cost funding through commercial paper and tax-exempt conduit bonds.

Why Choose Florida Local?

- ✓ Customizable
- ✓ Quick turn around
- ✓ No prepayment penalties
- ✓ Flexible repayment options

Commercial Paper

A short-term loan instrument with historically lower interest rates and costs of issuance than other types of financing.

Conduit Bonds

An innovative financing tool allowing local governments to fund acquisition, construction, expansion and other large-scale projects for qualifying private entities.
